

Community neurology project – key areas of work

Project coordination (work package 1)

Key outcome: effective coordination of project and progression through the three phases of the project

Lead: Zameel Cader, Clinical Director for Mental Health, Neurology and Dementia, Thames Valley Strategic Clinical Network
Email: zameel.cader@ndcn.ox.ac.uk

Defining needs and priorities (work package 2)

Key outcome: defining patient/carer needs in the community, ensuring the development of patient-centred care models and identifying outcomes that matter to patients

Lead: Joanne Ross, Assistant Director of Neurological Services at Sue Ryder.
Email: joanne.ross@suerydercare.org

Benchmarking care provision (work package 3)

Key outcome: identifying and developing a core neurology dataset, analysis of patient outcomes and resource utilisation

Lead: Dr Rishi Mannan, GP & Clinical Lead Windsor, Ascot and Maidenhead CCG
Email: rishi.mannan@nhs.net

Integrating models of care (work package 4)

Key outcome: identifying and developing integrated care models to ensure appropriate expertise and support is provided in a coordinated and timely manner

Lead: Jill Kings, Clinical Director Neural Pathways

Email: jill.kings@neural-pathways.co.uk

Good mental health (work package 5)

Key outcome: ensuring parity of esteem and care models with mental health support, and developing mental health and cognition interventions and resources

Lead: Dawn Langdon, Professor of Neuropsychology, Director of Health and Medicine, Royal Holloway University of London

Email: D.Langdon@rhul.ac.uk

E-health (work package 6)

Key outcome: ensuring community care models for neurological long term conditions take advantage of the latest technological innovations

Lead: Zameel Cader: Clinical Director for Mental Health, Neurology and Dementia, Thames Valley Strategic Clinical Network

Email: zameel.cader@ndcn.ox.ac.uk

Health economics (work package 7)

Key outcome: developing a business case with health economic data to demonstrate value of the new care models

Lead: Dr Christopher Kipps, Consultant Neurologist and Honorary Clinical Lecturer
University of Southampton, University Hospital Southampton NHS Foundation Trust
Email: ckipps@nhs.net

Communication and dissemination (work package 8)

Key outcome: developing a project website and a national dissemination of project progress for effective stakeholder engagement

Lead: Arlene Wilkie, Chief Executive Neurological Alliance
Email: arlene.wilkie@neural.org.uk
